

Owner Meetings

The Langham Hotel, Chicago, IL

MEMBERS
DEVELOPMENT
COMPANY

What they are

Our semi-annual owner meetings provide an environment for our owners to network with each other, anticipate what's ahead for credit unions, and learn about our most recent research and developments. We invite speakers from both inside and outside of the financial services industry to share all of the latest insights. Some of our most powerful speakers have been from Facebook, iHeartMedia, IBM Watson Group, Viacom/MTV, as well as several fin-tech disruptors from upcoming, groundbreaking start-ups.

The value

These events provide tremendous value to our owners. Credit union innovators are able to gather, bounce ideas off of each other, and engage in critical conversation. After a recent owner meeting, some of the feedback we received included:

- Best event I have ever been to. (Amy Fuller, Catalyst Corporate Credit Union)
- [MDC has] very exciting projects that definitely can help us grow and differentiate ourselves. (Amy McGraw, Tropical Financial Credit Union)
- The four people from my team that attended had so many positive things to say. (Angie Owens, American Airlines Federal Credit Union)

Save the date

Our next Owner Meeting will be held at The Langham Hotel in downtown Chicago on August 1-2. Some likely agenda topics include:

- How CUs can respond to the student loan debt crisis
- Using software bots to automate data processing
- Supplementing traditional FICO scores with additional data to better inform lending decisions
- Creating new lending and insurance products in the era of the sharing economy
- And more!

As a guest at this owner meeting, you will witness the power of these events first-hand and meet some of the best innovators and leaders in the business. We look forward to having you join us!
