COMPANY

**MDC IS:** A network of credit union industry leaders conducting R&D initiatives focused on delivering meaningful solutions to the 21st Century demands of consumers. Combined, our owners serve over 10 million members, hold \$164.5 billion in assets, maintain 1,522 branch locations across the nation, and employ over 30,000 employees.

By pooling resources from 60+ credit union and CUSO owners, MDC is able to deliver meaningful solutions efficiently and affordably while also learning the lessons of what doesn't work—all without exhausting your entire credit union's budget for exploration and development.

We also believe that our research must be driven by our owners for our owners. While we do the heavy lifting for them, our credit union owners both advise and participate in our work, making them not just investors but also partners.

## MDC GENERATES VALUE THROUGH:

- Relevant research
- Innovative products or services
- Actionable takeaways
- Improved processes
- Valuable vendor relationships
- Shared knowledge
- Networking and collaboration among owners
- Sharing costs
- Creating economies of scale
- Providing consistency of focus

## THE MDC EXPERIENCE IS:

**Unique**—The nearly 60 large credit unions and credit union service organizations that form our ownership are progressive, proactive, responsive, and forward thinking. They have recognized that credit unions must adapt to the 21st Century economy and, more importantly, are making the investments to do so.

**Thought provoking**—We host semi-annual owner meetings that include stimulating content, unique speakers, and opportunities to network and build relationships.

**Innovative**—Our annual Innovation Council program gathers the brightest young stars from our owners to collaborate together on novel solutions to problems they see on the front lines every day.

**Nimble**—By keeping our growth manageable and being selective about who we partner with, MDC can maintain a clear vision of both what our owners' needs are and what deliverables will best fulfill them
