

Members Development Company is an interactive and future-focused network leading credit unions through collaborative innovation, development, thought leadership, and research. Our vision is to be *the* collaborative force accelerating credit union success.

MDC comprises almost 70 credit unions holding over \$246.2 billion in assets, serving 15.9 million members and employing more than 40,000 professionals. We create value by leveraging the combined strengths of our owners and dynamic partners to develop or identify innovative products and services that fulfill the needs and exceed the expectations of our credit unions and their members. We deliver meaningful solutions efficiently and affordably while also learning the lessons of what doesn't work—all without exhausting your credit union's budget for exploration and development.

We also believe that our research must be driven by our owners for our owners. While we do the heavy lifting for them, our credit union owners both advise and participate in our work, making them not just investors but also partners.

MDC GENERATES VALUE THROUGH:

- Collaborative Developments
 - We deliver innovative, compelling, and exclusive solutions created by and for credit unions.
 - By leveraging the strength of our network, we negotiate favorable pricing with industry-leading vendors offering relevant credit union solutions.
 - Our successful track record includes the launching of multiple CUSOs, allowing us to monetize our innovations for the benefit of our owners.
- Collaborative Research
 - We share the costs of our research projects across many owners.
 - Our owners save time leveraging the knowledge of their peers.
 - We buy research from Gartner Retail Banking Leadership Council and the Financial Health Network and share it with our owners.
- Owner Meetings
 - Our owner meetings are the best networking events in the industry, gathering hundreds of credit union professionals and other thought leaders and focusing not just on the issues they face today, but also those on the horizon.
 - Each meeting features the most important updates from MDC as well as valuable insights from subject matter experts from fields relevant to the future of the industry.
 - Best of all, our meetings are a sales-free environment designed exclusively to maximize the value our owners get out of attending.
- Thought Leadership
 - We focus on the horizon and solutions for the challenges faced both today and tomorrow, helping our owners stay ahead of the pack.
