

Owner Meetings

Our semi-annual owner meetings provide an environment for our owners to network with each other, anticipate what's ahead for credit unions, and learn about our most recent research and developments. We invite speakers from both inside and outside of the financial services industry to share relevant and timely insights, and some of our most recent speakers have included thought leaders from Microsoft, Lenovo, and Verizon, and we always hear from a number of our collaborative partners.

The owner meetings are a great place to network with the industry's brightest minds and leaders about actionable initiatives that will advance Bethpage's strategic plan.

Kyle Markland, COO
Bethpage Federal Credit Union
MDC Board Member

Great job with this last owner meeting! I really thought we hit on all cylinders with every aspect. Great speakers, great projects, great updates, and great panels.

Robert S. Lockett, III
CSO and SVP Diversified Services
Workers Credit Union

MDC's Digital 2020 Summer Owner Meeting will be on August 4!

Yes, we're going digital for our 2020 Summer Owner Meeting, but our re-imagined owner meeting experience will STILL deliver substantial value and impact to our owners!

True, it's not the same as a face-to-face meeting. We get it. But we'll make it up to our owner attendees with an exciting format, interactive features, and even some surprises we'll deliver to their home or office so they can have fun throughout the shared experience.

What isn't changing is our dedication to bringing together our network of leading credit unions to hear from thought leaders and trend setters from across the industry and beyond. When our owners log in to the meeting on the morning of August 4, they'll be welcomed to the day's activities along with hundreds of other credit union attendees, subject matter experts, thought leaders, special guests, and sponsors.

We're so excited about connecting with owners and partners all that we do together for the credit union industry in this new way!
