

## Owner Testimonials

*We benefit from the combined research and development of nearly 50 progressive credit unions, and in turn, we are able to deploy our resources to help bring meaningful initiatives to reality. Ownership will also allow us to use that R&D to determine what will work well for Meritrust and, equally as important, what will not.*

**James Nastars, President/CEO  
Meritrust Credit Union  
MDC Board Member**

*MDC's owner meetings are a great opportunity to meet like-minded people, hear about what they are doing, and discuss what the future holds for our industry. We also value the access to Gartner research that we couldn't afford on our own as well as the research and vetting of vendors performed by MDC itself.*

**Laura Campbell, President  
FIGFCU  
MDC Board Member**

*Participating in an MDC joint project was a great experience. There was value in the collaboration and in learning new ways to identify gaps and respond with improvements for our members' experiences.*

**Pattie Dixon  
VP of Member Experience  
BCU**

*MDC has helped us explore numerous subjects that we would not have otherwise and provided incredible value. I would strongly recommend MDC to any credit union looking to collaboratively tackle the challenges facing our industry today and tomorrow.*

**Jeff Thieman  
COO  
Campus USA Credit Union**

*MDC consistently supplies our credit union with relevant, real-world information that we would have neither the time nor financial resources to obtain on our own. They always make us welcome and make it easy for us to involve multiple levels of our staff in their various projects. We also appreciate the opportunity to collaborate with industry experts and vendors in a non-sales environment. Probably above all, MDC's two annual owner meetings provide ample opportunity to network and share ideas with the most progressive credit unions in the country.*

**Mike Goodman  
CIO  
Alabama Credit Union**
